

Serial No. 10/782,794

In the specification:

Page 1, first full paragraph, replace with the following:

'Cetwotone Pink' is a product of a breeding-program which ~~that~~ had the objective of creating new chrysanthemum cultivars with a daisy type flower, a 7 week response and a medium plant height (1 m). The new plant of the present invention comprises a new and distinct cultivar of Chrysanthemum plant. 'Cetwotone Pink' is a seedling from a cross in a breeding program maintained under the control of the inventor. The female parent is # 97.0243 -unpatented-, an unnamed seedling not available to the inventor for description. The male parent is unknown, being a mixed population of a group of male parents. The new and distinct cultivar was discovered and selected as a flowering plant within the progeny of the stated cross by Mark Roland Boeder in a controlled environment (greenhouse) in Rijzenhout Holland in 2001. The first act of asexual reproduction of 'Cetwotone Pink' was accomplished when vegetative cuttings were taken propagated from the initial selection in 2001 in a controlled environment in Rijzenhout Holland.
